

## 2. Resource-Providing Contract

### Purpose:

This contract is formed when the buyer (or company) provides **resources** such as seeds, fertilizers, pesticides, or equipment to the farmer in exchange for a future supply of the crop.

### Key Components:

- **Parties Involved:** The farmer and the resource provider (could be a company selling agricultural products).
- **Resources Provided:** This includes any input that the buyer is providing to the farmer (e.g., seeds, fertilizers).
- **Responsibilities:** The farmer must follow guidelines provided by the resource provider, and the buyer must supply the resources as agreed.
- **Payment Terms:** How much the farmer will pay for the resources, whether payment is in advance, at delivery, or on a credit basis.

### Example:

A company agrees to provide **1,000 kg of fertilizer** for the farmer to grow **500 tons of tomatoes**. The farmer will pay **\$3 per kg** of fertilizer after the crops are harvested.

**This agreement is made between the undersigned parties:**
